Caregivers Empowering Caregivers: Fort Bliss Chapter

The role of the caregiver is an important one, filled with both encouraging and challenging moments. A program that supports military family members who are caring for their veteran or service member, wearing many hats caring for their wounded service member.

Too often we forget about our military canines when we remember war heroes and veterans. The truth is, many military dogs are instrumental in assisting our brave troops and veterans defend our freedom. Armed with an incredible sense of smell, combined with a work ethic that cannot be compared, these determined dogs have saved countless lives across the world. They have sacrificed and lost their lives in the line of duty, and they deserve our respect and gratitude.
